WORK EXPERIENCE

Frontend & Mobile App Developer (Intern)

HiSkyTech | Sargodha, Pakistan

- Built responsive web apps using **React, Redux Toolkit, and Tailwind CSS**.
- Developed cross-platform **Android & iOS apps** with **React Native** and **Firebase**.
- Integrated **Firebase Auth, Firestore, Realtime DB, and Cloud Messaging** for real-time features and notifications.
- Improved app performance using **lazy loading, code splitting, and optimized state management**.

Frontend Developer (Remote Intern)

Appverse Technology | Lahore, Pakistan

- Developed responsive and interactive UIs using **React.js** and **Tailwind CSS**.
- Integrated **Firebase Authentication, Firestore, and Realtime Database** for dynamic app features.
- Optimized frontend performance with **lazy loading and component-based architecture**.
- Collaborated with designers and backend developers to deliver smooth user experiences.

EDUCATION

University of Sargodha

BS Information Technology - 3.76/4 - Current

2024-28

PROJECTS

Table Reservation App (React Native + Firebase)

- Built a **cross-platform mobile app** for booking restaurant tables in real-time.
- Integrated **Firebase Realtime Database** to update table availability dynamically.
- Added **Firebase Authentication**.
- Used **React Navigation** and **Redux Toolkit** for smooth UI and state management.

Portfolio Website (React + Redux Toolkit + Tailwind CSS)

- Designed and developed a **modern, responsive portfolio website** to showcase projects and skills.
- Utilized **React components** and **Redux Toolkit** for data flow and state control.
- Implemented **Framer Motion** for clean animations and transitions.

E-Commerce Web App (React + Firebase + Redux Toolkit)

- Created a **basic e-commerce platform** featuring product listing, cart management, and checkout flow.
- Integrated **Firebase Firestore** for product and order data.
- Added **user authentication** with Firebase Auth and secure routing using React Router.
- Managed application state with **Redux Toolkit**.

Cryptoplace (React + API Integration)

- Developed a **crypto dashboard web app** to track **real-time cryptocurrency prices** using public APIs.
- Implemented **search, filtering, and live updates** for user convenience.
- Used **Axios** for API calls and **Chart.js/Recharts** for data visualization.
- Focused on responsive design and smooth UI performance with React hooks.

SKILLS

Languages: C++, JavaScript, basic Kotlin, Python

Frameworks & Libraries: React, React Native, Redux Toolkit

Database: Firebase

Tools: VSCode, Android Studio
